About us

Colour Studios is a pioneering force in sustainable marketing solutions, specialising in large format cardboard displays tailored for trade shows, events and retail.

We have an array of innovative and eye-catching displays, designed to captivate audiences while championing environmental responsibility. From intricately crafted exhibition stands to attention-grabbing point-of-sale, our displays stand tall in both aesthetics and sustainability.

We understand the importance of leaving a lasting impression while treading lightly on the planet, and our designs speak volumes about our commitment to marrying creativity with sustainability awareness.

Display Wall

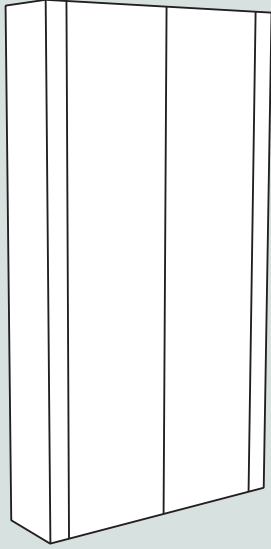

Our Display Walls represent a sustainable pop-up solution. This printed cardboard display series is available in both straight and curved configurations.

The modular wall system offers versatility and unlimited scalability. Each panel is 500mm wide and interconnected to form the display. They are reusable and recyclable at the end of their lifecycle.

Delivered in cardboard carry cartons, these walls include user-friendly self-installation instructions for effortless setup.

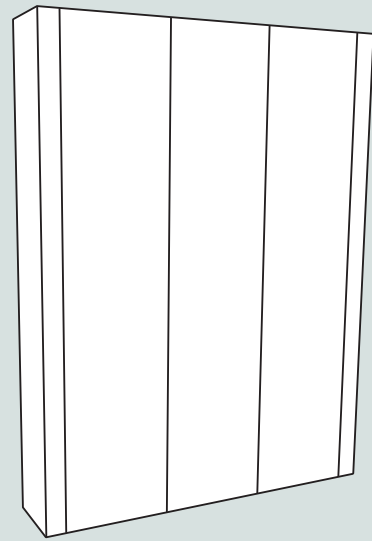

We can recycle your Display Walls using our in-house waste management service.

Example installations

The Display Wall shines across various settings, from exhibitions and corporate events to retail point of sale displays and conferences. Its distinctive modular design ensures exceptional versatility, tailored to meet our clients' specific needs.

We've customised these walls with shelving, literature dispensers, stand-off graphics, lighting and more, reflecting our commitment to adaptability and customer satisfaction. Here are some examples.

Folds down into portable carry cartons

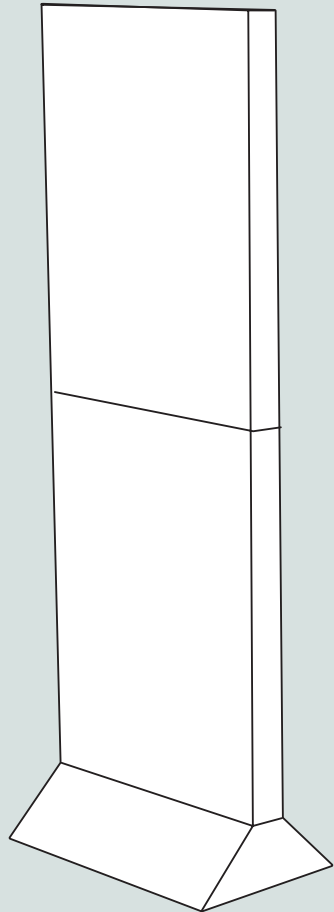

Bannerstand

Crafted entirely from recyclable cardboard, the bannerstand blends sustainability and functionality seamlessly. The lightweight, portable design suits various events, offering hassle-free setup and easy transportation for on-the-go marketing.

These stands allow vibrant graphics and branding, ensuring attention-grabbing visuals. With durability built into their design, these stands serve as a platform for businesses to showcase their brand, making a significant visual impact without compromising environmental responsibility.

4 stands fit inside one carry carton!

Large
E-Fluted Cardboard

Double Sided
Width: 800mm
Height 2200mm
Depth: 70mm

Optional Extras

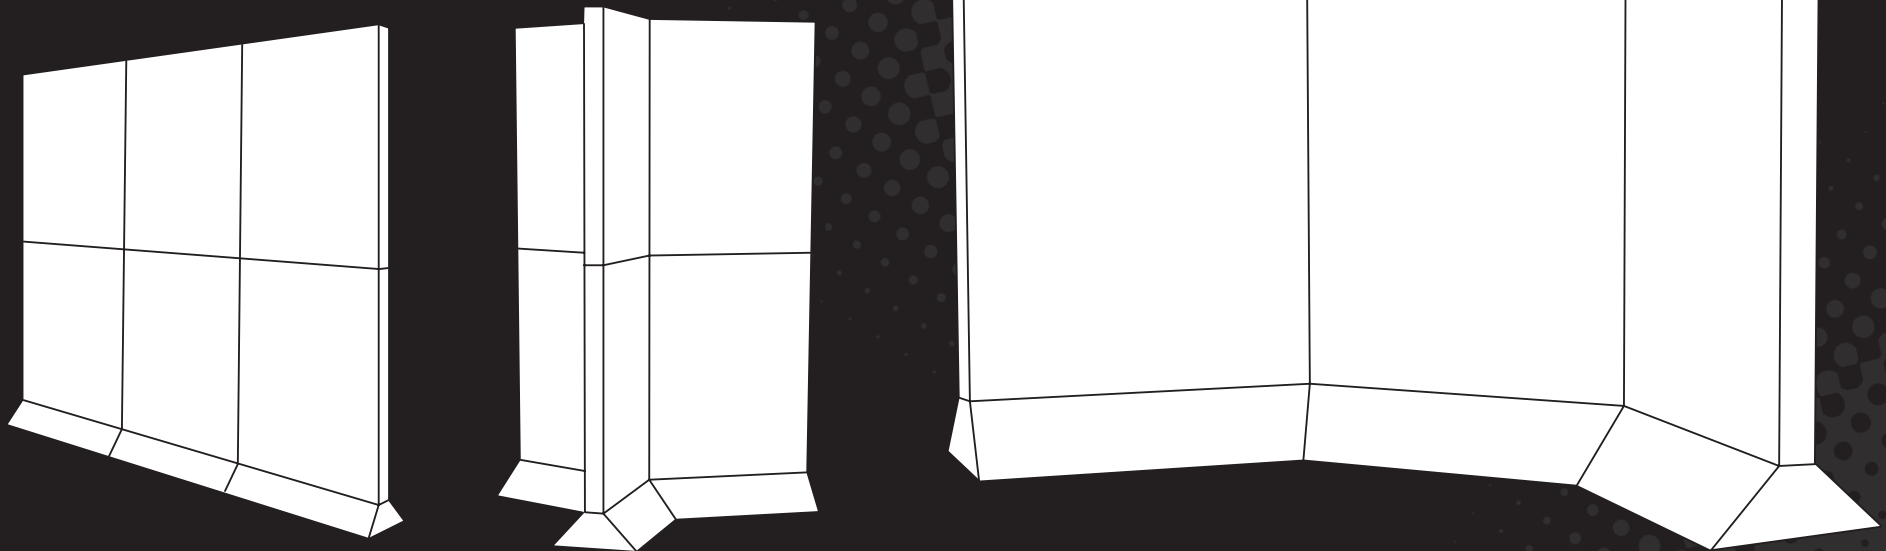

There are a number of optional extras that can be added to a Bannerstand, including headers, literature dispensers, shelves and stand-off graphics. If that's not enough, we can customise them to suit your needs.

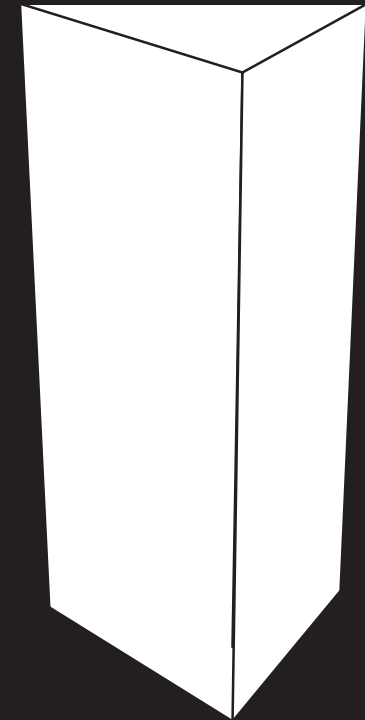

Bannerstand linking options

Bannerstands offer plenty of adaptability. Not only can they be customised with optional extras, they can also be linked together into various configurations to form larger displays.

This unique feature adds value and makes this portable display solution even more versatile.

Bespoke design service

Our in-house design and production team work closely with our clients to develop custom display solutions to suit your budget and requirements.

Whether it is a small CDU, a retail window display, conference or a full exhibition, nothing is beyond our creative capabilities.

Tell us what you're thinking and we'll make it happen. Not only that, we can even send one of our talented operatives to install it for you.

We love a challenge!

Our badges of excellence ★

ISO14001

Proudly accredited with ISO14001 certification. This globally recognised standard for environmental management systems reflects our commitment to sustainable event practices. ISO14001 drives us to continually find innovative ways to make our products and events more sustainable and environmentally friendly.

ISO45001

By adhering to the internationally recognised occupational health and safety management system standard, ISO 45001, we demonstrate our commitment to creating a safer working environment. This certification provides our clients with the assurance that their projects and collaborations prioritise the well-being of everyone involved.

EcoVadis

Our accreditation highlights fair labour practices and a commitment to employee well-being. Ecovadis evaluates our environmental, social and ethical practices, ensuring a well-rounded approach to sustainability.

ISO9001

This accreditation serves as a testament to our dedication to meeting and exceeding international standards, showcasing our ability to consistently deliver high-quality products or services. We take pride in the fact that our processes adhere to a globally recognised framework, ensuring efficiency, reliability, and continuous improvement.

Here's what our customers say

I've worked with Colour Studios now for 2 years on numerous projects and I couldn't be more impressed with them. We continuously put them under pressure with tight deadlines and they always manage to meet them whilst maintaining a high quality end product. They are always friendly and willing to go the extra mile to help you achieve your goals, however crazy the brief is!

Tom Bond
Senior Marketing Executive, Apetito

We are delighted to be working with Colour Studios to integrate sustainable displays & events at Cardiff Arms Park. Seeking a responsible solution for our ever-changing requirements, Colour Studios proved to be the perfect choice. Their commitment to sustainability, delivery of high standards, and their incorporation of user-friendly, efficient components makes us eager to continue our work together in the future.

Rhys Blumberg
Chief Operating Officer, Cardiff Rugby

I have been a client of Colour Studios for around the last 5 years, working with them across several different brands and projects. I have always found them to be extremely helpful and supportive in realising concepts, from the initial design process right through to the final result. With the Colour Studios team I have realised some 3D designs from cardboard that I would never have thought possible ranging from full tradeshow stands to clothing display fixtures to shopfloor signage and display equipment. The quality of their product is always exceptional and they will always be on hand to talk through any problems we encounter along the way. Sustainability is really important to me, Colour Studios will always offer me a realistic, sustainable solution and never try to make sustainable claims about materials that aren't, which I find very refreshing.
