

Colour Studios Limited: Job Vacancy 1st September 2010
Trainee: 3d visualiser, exhibition design and cardboard engineering

This is a great opportunity to develop new skills in a varied and interesting industry:

Colour Studios supply exhibition services, wide format printing, modular display solutions and retail point of sale graphics. We have invested in the latest high quality UV print and digital cutting technologies. We benefit from several unique products and services such as our recyclable display range. Please see our web sites for the full product range.

The key areas of training and development are:

1. Exhibition services:
 - a) 3d design for modular exhibition stand build services.
 - b) Digital presentations for client's applications.
 - c) Creation of project design packages including dimensions, floor plans, graphic sizes, hardware components, hire items etc.

2. Recyclable displays:
 - a) Adjustments to current digital cutter guides for cutting and producing cardboard displays.
 - b) Adjustment to artwork templates for printing and producing cardboard displays.
 - c) Creation of graphic artwork for cardboard displays.
 - d) Creating new cardboard display solutions through design and testing techniques.
 - e) Printing, cutting and production of cardboard displays.

This is a trainee position. Training and on the job development will be provided leading to a full time role covering both these areas of design and the 3 dimensional creative elements of our business.

These are the key skills and experiences we are looking for:

1) Education

- a) A range of suitable GCSE subjects including Maths and English, A levels or equivalent technical qualifications including a creative design subject.
- b) Training, experience or a qualification in 3d design, packaging design, point of sale displays or skills related to digital presentations.

2) Computers and software

- a) Computer literate, ideally using Apple Mac computers.
- b) Training, skills or experience using Adobe Photoshop, Illustrator or In-design.

3) Work experience

- a) Any relative work experiences will be an advantage.

The successful candidate will ideally have:

- a) An interest and experience in graphic and presentational design.
- b) A portfolio of your own work.
- d) A desire to learn these skills and start on a career in visualising and design.
- e) An eye for detail, colour accuracy and quality.
- f) An ability to work to a brief and within tight deadlines.
- g) Be of smart appearance and have an affable personality.

A competitive training salary is offered.
